INDEX

ABDOMINAL distention, relation of blood pressure to, 120.

ABRAMS, J. and R. W. GERARD. The influence of activity on the survival of isolated nerve, 590.

Acetylcholine, action of, on intestine, 433.

——, oxidation of, by tissues, 438.

ADOLPH, E. F., M. J. GERBASI and M. J. LEPORE. The rate of entrance of fluid into the blood in hemorrhage, 502.

Adrenal cortex and renal function, 399.

—— —— —— resistance to cold in hypophysectomized rats, 489.

—— secretion, effect of dehydration on, 628.

ALBRIGHT, F. See BAIRD, CLONEY and ALBRIGHT, 489.

Allantoin and uric acid after removal of liver, 242.

Anoestrum, induction of ovarian activity during, 165.

Anorexia in vitamin B deficiency, water intake and, 484.

Anoxemia, effect of, on homeostasis, 184.

Aorta and pulmonary artery, nerve plexus between, 253.

——, effect of short radio waves and heat on elasticity of, 347.

Aqueous humor, osmotic relation of blood and, 235.

Arteries, pain-sensibility of, 259, 267.

AYDELOTTE, B. F. See BARBOUR and AYDELOTTE, 127.

BAIRD, P. C., JR., E. CLONEY and F. ALBRIGHT. Effect of cortical hormone in preventing extreme drop in colonic temperature displayed by hypophysectomized rats upon exposure to cold with preliminary observations upon the effect of hypophyseal and other hormones, 489.

BARBOUR, H. G. and B. F. AYDELOTTE. Heat regulation and water exchange. XVI. Anhydremia with liver hydration of neurogenic origin. 127,

——. See GILMAN and BARBOUR, 392.

BERKSON, J. Electromyographic studies of the gastro-intestinal tract:

III. Observations on excised intestine, 62.

IV. An inquiry into the origin of the potential variations of rhythmic contraction in the intestine; evidence in disfavor of muscle action currents, 67.

BERNHEIM, F. Action of acetylcholine on the intestine, 433.

—— and M. L. C. BERNHEIM. Oxidation of acetylcholine by tissues, 438.

BERNHEIM, M. L. C. See BERNHEIM and BERNHEIM, 438.

BISHOP, G. H. See HEINBECKER, O'LEARY and BISHOP, 23.

BIXBY, E. M. See SCHLOSSBERG, SAWYER and BIXBY, 190.

Blood, amount of, traversing shortest systemic paths, 650.

—— and aqueous humor, osmotic relation of, 235.

—— and digestive fluids, osmotic relations between, 476.

—— changes associated with sweating, 441.

—— —— produced by partial inanition and muscular fatigue, 669.

—— of human subjects during fetal liver feeding, 364.

—— osmotic pressure and insensible weight loss, 392.

—— pressure, carotid sinus and, 443.

—— ——, relation of, to abdominal pressure, 120.

—— sugar, effect of lecithin and NaCl on, 344.

—— ——, relation of hunger contractions to, 371.

Blood velocity in shortest systemic paths, 650.
—— volume increase, circulatory effects of, 423.
Bock, A. V. See Dill, Bock and Edwards, 36.
Bollman, J. L. and F. C. Mann. Studies on the physiology of the liver. XXV. Allantoin and uric acid following total removal of the liver, 242.
Bone marrow volume in adult dogs, 352.
Brams, W. A., L. N. Katz and L. Kohn. The effect of abdominal distention and release on the blood pressures in the arteries and veins, 120.
Bright, E. M. See Sawyer, Schlossberg and Bright, 184.
Britton, S. W. See Silvette and Britton, 399.
Brooks, M. M. Methylene blue as an antidote to CO poisoning, 139.
Bryant, J. E. See Talbert, Haugen, Carpenter and Bryant, 441.

Bucy, P. C. and D. N. Buchanan. Studies in the human neuro-muscular mechanism. I. The theory of "subsidence of afferent flow" as an explanation of the "lengthening reaction" and other phenomena, 95.
Burge, W. E., G. C. Wickwire and O. S. Orth. The effect of moving liquid upon the electrical stimulation of muscle, 480.

Cajori, F. A. The enzyme activity of dogs' intestinal juice and its relation to intestinal digestion, 659.
Calcium, utilization of, in pastuerized milk, 1.
Cannon, W. B. and A. Rosenblueth. Studies on conditions of activity in endocrine organs. XXIX. Sympathin E and sympathin I, 557.
Cardiac output, effect of respiration on, 358.
—— —— in hyperventilation, 142.
Carlson, A. J. See Da Costa and Carlson, 247.
Carotid sinus, function of, 443.
Carpenter, R. See Talbert, Haugen, Carpenter and Bryant, 441.
Carpenter, T. M., and R. C. Lee. The influence of glucose and of fructose on the effective dead space in human respiration, 10.
Cations and nerve functions, 216.
Cerebral function in learning, 51.
Cerebrospinal pressure and positional alterations of body, 681.
Chang, T. H. and R. W. Gerard. Studies on nerve metabolism. VII. The rôle of lactic acid, 291.
Chasis, H. See Jolliffe and Chasis, 677.
Circulation, systemic, amount and velocity of blood traversing shortest paths of, 650.
Circulatory effects of acute hypervolemia, 423.
Cloney, E. See Baird, Cloney and Albright, 489.
CO poisoning, methylene blue as antidote to, 139.
Cold, resistance to, in hypophysectomized rats, 489.
Cole, H. H. and R. F. Miller. Artificial induction of ovulation and oestrum in the ewe during anoestrum, 165.
Collins, L. H., Jr. See Starr and Collins, 650.
Corpora lutea, induced, functional capacity of, in infantile rat, 693.
Cowgill, G. R. and M. L. Palmieri. Studies in the physiology of vitamins. XXI. The effect of water administration on the development of anorexia and polyneuritic symptoms in pigeons subsisting on a diet lacking the vitamin B complex, 484.
——. See Gilman and Cowgill, 476.
Creatinine, exogenous, filtration and secretion of, 677.
Cromer, S. P. and A. C. Ivy. Respiratory death from central vagus stimulation after removal of stellate ganglia, 457.
——, R. H. Young and A. C. Ivy. On the existence of afferent respiratory impulses mediated by the stellate ganglia, 468.

Cutaneous sensations, spinal irradiation and, 537.

DA COSTA, E. and A. J. CARLSON. The effect of feeding desiccated thyroid upon the sexual maturation of the albino rat, 247.

DAVIS, H. See KNOEFEL and DAVIS, 81.

Deciduomata in immature rats, pregnancy urine and, 693.

Dehydration, effect of, on adrenal secretion, 628.

Denervation, changes in skeletal muscle of rat after, 379.

Depancreatized dogs, absorption of calcium lactate, sodium bicarbonate and blood serum by, 636.

Dermatitis, effect on, of heating egg white in diet, 150.

Diabetes, pancreatic, respiratory metabolism of, 298.

Diet, effect on dermatitis of heating egg white in, 150.

——, pellagra-producing, 18.

Digestive activity of intestinal enzymes, 659.

—— fluids, osmotic relations between blood and, 476.

DILL, D. B., A. V. BOCK and H. T. EDWARDS. Mechanisms for dissipating heat in man and dog, 36.

DOKTORSKY, A. See KLEITMAN and DOKTORSKY, 340.

EATON, A. G. and J. R. MURLIN. The absorption of insulin from the gastro-intestinal tract. I. The effect of calcium lactate, sodium bicarbonate and blood serum in depancreatized dogs, 636.

EDWARDS, H. T. See DILL, BOCK and EDWARDS, 36.

Egg white, heating, in diet, effect of, on dermatitis, 150.

ELLIS, M. and H. H. MITCHELL. The effect of the pasteurization of milk on the utilization of its calcium for growth in the rat, 1.

Endocrine organs, conditions of activity in, 557.

Esophageal secretion, influence of vagus nerve on, 73.

Eye, gases in fluids of, 553.

EYSTER, J. A. E. and E. V. HICKS. Effect of respiration on cardiac output, 358.

FAIRMAN, E. and G. H WHIPPLE. Bone marrow volume in adult dogs, 352.

Feeding method, paired, and vitamin A assay, 608.

—— ——, ——, and vitamin B assay, 594.

FEVOLD, H. L., F. L. HISAW, A. HELLBAUM and R. HERTZ. Sex hormones of the anterior lobe of the hypophysis, 710.

FIROR, W. M. Hypophysectomy in pregnant rabbits, 204.

——. See REYNOLDS and FIROR, 331.

FLEXNER, L. B. and L. H. WEED. Factors concerned in positional alterations of intracranial pressure, 681.

FREEMAN, D. See PIERCE, FRIEDENWALD and FREEMAN, 553.

FREEMAN, N. E., R. S. MORISON and M. E. MACK. SAWYER. The effect of dehydration on adrenal secretion and its relation to shock, 628.

FRIEDENWALD, J. S. See PIERCE, FRIEDENWALD and FREEMAN, 553.

Fructose, influence of, on effective dead space in human respiration, 10.

GARRETT, O. F. and H. H. MITCHELL. An application of the paired feeding method to the quantitative estimation of the relative vitamin A contents of foods and artificial concentrates, 608.

GASSER, H. S. See SCHMITT and GASSER, 320.

Gastric hunger mechanism, 371.

—— motility, action of insulin on, 90.

—— ——, hyperthyroidism and, 624.

Gastro-intestinal tract, absorption of insulin from, 636.

—— —— ——, electromyographic studies of, 62, 67.

GELLHORN, E. and J. D. NORTHUP. The influence of spinal irradiation on cutaneous sensations. II. The effect of pain irradiation on temperature sensations, 537.

GEMMILL, C. L., E. W. OVERSTREET and L. M. HELLMAN. The effect of occlusion of the carotid arteries on heart rate and respiratory rate before and after denervation of the carotid sinus in normal dogs, 443.
GERARD, R. W. and W. H. MARSHALL. Nerve conduction velocity and equilibration, 575.
——. See ABRAMS and GERARD, 590.
——. See CHANG and GERARD, 291.

CONTENTS

No. 1. April, 1933

The Effect of the Pasteurization of Milk on the Utilization of Its Calcium for Growth in the Rat. *Martell Ellis and H. H. Mitchell* 1

The Influence of Glucose and of Fructose on the Effective Dead Space in Human Respiration. *Thorne M. Carpenter and Robert C. Lee* 10

An Experimental Study of a So Called "Pellagra-producing Diet. *Tom Douglas Spies and Jean Grant* 18

Nature and Source of Fibers Contributing to the Saphenous Nerve of the Cat. *P. Heinbecker, James O'Leary and G. H. Bishop* 23

Mechanisms for Dissipating Heat in Man and Dog. *D. B. Dill, A. V. Bock and H. T. Edwards* 36

Ovarian Responses to Prolan and Anterior Pituitary Extract in Hypophysectomized Rabbits with Particular Reference to Ovulation. *William E. White and Samuel L. Leonard* 44

Studies of Cerebral Function in Learning. X. The Effects of Dilatation of the Ventricles upon Maze-learning. *K. S. Lashley, W. T. McDonald and H. N. Peters* 51

Electromyographic Studies on the Gastro-intestinal Tract. III. Observations on Excised Intestine. *Joseph Berkson* 62

Electromyographic Studies of the Gastro-intestinal Tract. IV. An Inquiry into the Origin of the Potential Variations of Rhythmic Contraction in the Intestine; Evidence in Disfavor of Muscle Action Currents. *Joseph Berkson* 67

The Influence of the Vagus Nerve on Esophageal Secretion. *Arthur M. Vineberg and S. A. Komarov* 73

The Frequency of Impulses in the Nerve Fibers to the Nictitating Membrane of the Cat. *Peter Knoefel and Hallowell Davis* 81

The Action of Insulin on the Motility of the Empty Stomach. *J. F. Regan* 90

Studies in the Human Neuro-muscular Mechanism. I. The Theory of "Subsidence of Afferent Flow" as an Explanation of the "Lengthening Reaction" and Other Phenomena. *Paul C. Bucy and Douglas N. Buchanan* 95

On the Sympathetic Innervation of Guinea-pig Intestine. *Milton Newman and C. H. Thienes* 113

Multiple Ovaries in Mice. *N. Werthessen and Gregory Pincus* 117

The Effect of Abdominal Distention and Release on the Blood Pressures in the Arteries and Veins. *W. A. Brams, L. N. Katz, and L. Kohn* 120

Heat Regulation and Water Exchange. XVI. Anhydremia with Liver Hydration of Neurogenic Origin. *Henry G. Barbour and Benjamin F. Aydelotte* 127

Methylene Blue as an Antidote to CO Poisoning. *Maltilda Moldenhauer Brooks* 139

The Cardiac Output in Hyperventilation by External Alternating Pressure. *Norman W. Roome* 142

The Effect of Heating Egg White on Certain Characteristic Pellagra-like Manifestations Produced in Rats by Its Dietary Use. *Helen T. Parsons and Eunice Kelly* 150
Artificial Induction of Ovulation and Oestrum in the Ewe during Anoestrum. *H. H. Cole and R. F. Miller* 165
Studies of Homeostasis in Normal, Sympathectomized and Ergotaminized Animals. I. The Effect of High and Low Temperatures. *M. E. MacKay Sawyer and T. Schlossberg* 172
Studies of Homeostasis in Normal and Sympathectomized Animals. II. The Effect of Anoxemia. *M. E. MacKay Sawyer, T. Schlossberg and E. M. Bright* 184
Studies of Homeostasis in Normal, Sympathectomized and Ergotaminized Animals. III. The Effect of Insulin. *T. Schlossberg, M. E. MacKay Sawyer and E. M. Bixby* 190
Studies of Homeostasis in Normal, Sympathectomized and Ergotaminized Animals. IV. The Effect of Hemorrhage. *T. Schlossberg and M. E. MacKay Sawyer* 195
Hypophysectomy in Pregnant Rabbits. *Warfield M. Firor* 204
Modification of Nerve After-potential and Refractory Period by Changes of Ionic Environment: New Cases of Physiological Antagonism between Univalent and Bivalent Cations. *Helen Tredway Graham* 216
Osmotic Relations between Blood and Body Fluids. III. The Osmotic Relation of Blood and Aqueous Humor. *Alfred Gilman and Arthur M. Yudkin* 235
Studies on the Physiology of the Liver. XXV. Allantoin and Uric Acid following Total Removal of the Liver. *Jesse L. Bollman and Frank C. Mann* 242
The Effect of Feeding Desiccated Thyroid upon the Sexual Maturation of the Albino Rat. *Esther Da Costa and A. J. Carlson* 247
The Nerve Plexus between the Aorta and Pulmonary Artery. I. Observations on Its Nature and Function. *Louis N. Katz and Otto Saphir* 253

No. 2. May, 1933

Studies on the Pain-sensibility of Arteries. I. Some Observations on the Pain-sensibility of Arteries. *Robert M. Moore and Ruth E. Moore* 259
Studies on the Pain-sensibility of Arteries. II. Peripheral Paths of Afferent Neurones from the Arteries of the Extremities and of the Abdominal Viscera. *Robert M. Moore and Albert O. Singleton, Jr.* 267
A Quantitative Study of the Changes in Power during Muscular Contraction. *H. C. Stevens and J. M. Snodgrass* 276
Studies on Nerve Metabolism. VII. The Rôle of Lactic Acid. *T. H. Chang and R. W. Gerard* 291
Effects of Adrenal Medulla and Thyroid on the Respiratory Metabolism of Pancreatic Diabetes. *G. C. Ring and C. W. Hampel* 298
The Oxygen Consumption of Stimulated Nerve. *Francis O. Schmitt* 303
The Relation between the After-potential and Oxidative Processes in Medullated Nerve. *Francis O. Schmitt and Herbert S. Gasser* 320
Uterine Motility in Hypophysectomized and in Pregnant Rabbits. *Samuel R. N. Reynolds and Warfield M. Firor* 331
Studies on the Physiology of Sleep. VII. The Effect of the Position of the Body and of Sleep on Rectal Temperature in Man. *N. Kleitman and A. Doktorsky* 340

The Effect of Intravenous Administration of Lecithin and Sodium Chloride on Blood Sugar Values. *D. E. Gregg* 344
The Effect of Short Radio Waves and Heat on the Elasticity of the Aorta. *R. W. Heinle and K. R. Phelps* 347
The Effect of Short Radio Waves on Perfused Cats' Hearts. *R. W. Heinle and K. R. Phelps* 349
Bone Marrow Volume in Adult Dogs. *Edna Fairman and George H. Whipple* 352
Effect of Respiration on Cardiac Output. *J. A. E. Eyster and Earl V. Hicks* 358
Observations on the Blood of Normal Human Subjects during Fetal Liver Feeding. *Orville S. Walters and Parke H. Woodard* 364
The Gastric Hunger Mechanism. IV. The Influence of Experimental Alterations in Blood Sugar Concentration on the Gastric Hunger Contractions. *Michael G. Mulinos* 371
Changes in the Skeletal Muscle of the Rat following Denervation. *H. M. Hines and G. C. Knowlton* 379
The Relation between Blood Osmotic Pressure and Insensible Weight Loss. *Alfred Gilman and Henry G. Barbour* 392
Effects of Adrenalectomy and Cortico-adrenal Extract on Renal Excretion and Tissue Fluids. *H. Silvette and S. W. Britton* 399
A Comparison of the Clearances of Various Urinary Constituents. *H. L. White and Betty Monaghan* 412
The Circulatory Effects of Acute Experimental Hypervolemia. *D. E. Gregg and C. J. Wiggers* 423
Action of Acetycholine on the Intestine. *Frederick Bernheim* 433
Oxidation of Acetycholine by Tissues. *Frederick Bernheim and Mary L. C. Bernheim* 438
Simultaneous Study of the Constituents of the Sweat, Urine and Blood; Also Gastric Acidity and Other Manifestations Resulting from Sweating. X. Basic Metals. *G. A. Talbert, C. Haugen, R. Carpenter, and J. E. Bryant* 441
The Effect of Occlusion of the Carotid Arteries on Heart Rate and Respiratory Rate before and after Denervation of the Carotid Sinus in Normal Dogs. *C. L. Gemmill, E. W. Overstreet and L. M. Hellman* 443
Studies on the Physiology of Sleep. VIII. Diurnal Variation in Performance. *Nathaniel Kleitman* 449
Respiratory Death from Central Vagus Stimulation after Removal of Stellate Ganglia. *S. P. Cromer and A. C. Ivy* 457
On the Existence of Afferent Respiratory Impulses Mediated by the Stellate Ganglia. *S. P. Cromer, R. H. Young and A. C. Ivy* 468
Osmotic Relations between Blood and Body Fluids. IV. Pancreatic Juice, Bile and Lymph. *Alfred Gilman and George R. Cowgill* 476
The Effect of Moving Liquid upon the Electrical Stimulation of Muscle. *W. E. Burge, G. C. Wickwire and O. S. Orth* 480
Studies in the Physiology of Vitamins. XXI. The Effect of Water Administration on the Development of Anorexia and Polyneuritic Symptoms in Pigeons Subsisting on a Diet Lacking the Vitamin B Complex. *George R. Cowgill and M. L. Palmieri* 484
Effect of Cortical Hormone in Preventing Extreme Drop in Colonic Temperature Displayed by Hypophysectomized Rats upon Exposure

TO COLD WITH PRELIMINARY OBSERVATIONS UPON THE EFFECT OF HYPOPHYSEAL AND OTHER HORMONES. *Perry C. Baird, Jr., Elizabeth Cloney and Fuller Albright* 489

THE RATE OF ENTRANCE OF FLUID INTO THE BLOOD IN HEMORRHAGE. *E. F. Adolph, M. J. Gerbasi and M. J. Lepore* 502

No. 3. June, 1933

ELECTRICAL EXCITATION OF MULTIFIBERED NERVES. *A. Rosenblueth and D. McK. Rioch* 519

THE PLACENTAL TRANSMISSION OF PARATHYROID EXTRACT. *F. Meredith Hoskins and Franklin F. Snyder* 530

THE INFLUENCE OF SPINAL IRRADIATION ON CUTANEOUS SENSATIONS. II. THE EFFECT OF PAIN IRRADIATION ON TEMPERATURE SENSATIONS. *Ernst Gellhorn and Jane Day Northup* 537

THE CENTER OF OCULAR ROTATION IN THE HORIZONTAL PLANE. *Russell Smith Park and George E. Park* 545

THE GAS CONTENT OF THE INTRA-OCULAR FLUID. *H. F. Pierce, Jonas S. Friedenwald and David Freeman* 553

STUDIES ON CONDITIONS OF ACTIVITY IN ENDOCRINE ORGANS. XXIX. SYMPATHIN E AND SYMPATHIN I. *W. B. Cannon and A. Rosenblueth* 557

NERVE CONDUCTION VELOCITY AND EQUILIBRATION. *R. W. Gerard and W. H. Marshall* 575

NERVE IMPULSE VELOCITY AND FIBER DIAMETER. *W. H. Marshall and R. W. Gerard* 586

THE INFLUENCE OF ACTIVITY ON THE SURVIVAL OF ISOLATED NERVE. *J. Abrams and R. W. Gerard* 590

AN APPLICATION OF THE PAIRED FEEDING METHOD TO THE QUANTITATIVE ESTIMATION OF THE RELATIVE VITAMIN B CONTENTS OF FOODS AND ARTIFICIAL CONCENTRATES. *H. H. Mitchell* 594

AN APPLICATION OF THE PAIRED FEEDING METHOD TO THE QUANTITATIVE ESTIMATION OF THE RELATIVE VITAMIN A CONTENTS OF FOODS AND ARTIFICIAL CONCENTRATES. *O. F. Garrett and H. H. Mitchell* 608

OBSERVATIONS ON THE UREA CLEARANCE IN DOGS. *Russell L. Holman* 615

THE EFFECT OF EXPERIMENTAL HYPERTHYROIDISM ON HUNGER CONTRACTIONS IN THE BULL-FROG. *Grace Esther Wertenberger* 624

THE EFFECT OF DEHYDRATION ON ADRENAL SECRETION AND ITS RELATION TO SHOCK. *N. E. Freeman, R. S. Morison and M. E. MacKay Sawyer* 628

THE ABSORPTION OF INSULIN FROM THE GASTRO-INTESTINAL TRACT. I. THE EFFECT OF CALCIUM LACTATE, SODIUM BICARBONATE AND BLOOD SERUM IN DEPANCREATIZED DOGS. *A. G. Eaton and John R. Murlin* 636

ESTIMATIONS OF THE RAPIDITY AND AMOUNT OF BLOOD TRAVERSING THE SHORTER PATHS OF THE SYSTEMIC CIRCULATION. *Isaac Starr, Jr., and Leon H. Collins, Jr.* 650

THE ENZYME ACTIVITY OF DOGS' INTESTINAL JUICE AND ITS RELATION TO INTESTINAL DIGESTION. *F. A. Cajori* 659

CHANGES IN CERTAIN BLOOD CONSTITUENTS PRODUCED BY PARTIAL INANITION AND MUSCULAR FATIGUE. *F. W. Schlutz, A. B. Hastings and Minerva Morse* 669

THE FILTRATION AND SECRETION OF EXOGENOUS CREATININE IN MAN. *Norman Jolliffe and Herbert Chasis* 677

FACTORS CONCERNED IN POSITIONAL ALTERATIONS OF INTRACRANIAL PRESSURE. *Louis B. Flexner and Lewis H. Weed* 681

The Production of Deciduomata in Immature Rats by Pregnancy Urine Treatment. A Demonstration of the Functional Capacity of Induced Corpora Lutea in the Infantile Rat. *M. C. Shelesnyak* 693
The Absorption of Glucose from the Intestine. *I. S. Ravdin, C. G. Johnston and P. J. Morrison* 700
Sex Hormones of the Anterior Lobe of the Hypophysis. Further Purification of a Follicular Stimulating Factor and the Physiological Effects on Immature Rats and Rabbits. *H. L. Fevold, F. L. Hisaw, A. Hellbaum and R. Hertz* 710
